

りょうめんすくな  
**Ryomen Sukuna** (両面宿儻 *Ryōmen Sukuna*), more often referred to  
すくな  
as simply **Sukuna** (宿儻 *Sukuna*), is the strongest [jujutsu sorcerer](#) from a  
のろ  
thousand years ago. Regarded as the undisputed **King of Curses** (呪いの  
う  
王 *Noroi no Ō*), Sukuna is one of the primary antagonists of the [Jujutsu Kaisen](#)  
series.

かそう きじん

According to legend, Sukuna was an **Imaginary Demon** (仮想の鬼神 *Kasō no Kijin*) during the Heian Era but in truth he was a sorcerer also known as [だてん](#)  
the **Disgraced One** (墮天 *Daten*). Jujutsu sorcerers of the Golden Age of Jujutsu gave their all against him but ultimately fell one after another. Sukuna existed throughout the ages by transforming into a [cursed object](#) after death, a state where he split his power into twenty indestructible fingers. Sukuna was incarnated in June 2018 when [Yuji Itadori](#) consumed one of his fingers. Sukuna was trapped inside Yuji's body and was rarely in control until he managed to transfer his soul into the body of [Megumi Fushiguro](#).

## Appearance

His past appearance is described as a demon with four arms and two faces.<sup>[1]</sup> Previously, he used to take the appearance of his former host: [Yuji Itadori](#), but with pink spiky hair slightly pushed upfront and with tattoos/lines on his forehead, nose, cheeks, upper body, and abdomen. He also has a second pair of eyes underneath his normal eyes, which are usually closed. Now, he takes the appearance of his new current host: [Megumi Fushiguro](#), but with uniquely styled black hair with long spikes that jut out in every direction around his head, resembling a sea-urchin and with tattoos/lines on his forehead, nose, cheeks, upper body, and abdomen. He also has a second pair of eyes underneath his normal eyes.<sup>[2]</sup> Sukuna also has two lines on both his wrists, upper arms, circles on both his shoulders with a dot in each, two-segmented curve lines on his chest, and two lines on his stomach while possessing Yuji/Megumi.

## Personality

Sukuna is selfish, cold-hearted, immoral, and exceptionally sadistic. When he was reincarnated shortly after Yuji ingested his finger, he commented, implying the slaughter of women and children and likening them to maggots crawling around. Due to his immense power, he rarely cares about the consequences of his actions, even if these affect his host, Yuji Itadori. In fact, he frequently taunts and insults Yuji, calling him a brat and even laughing at or enjoying Yuji's despair on multiple occasions.

## Abilities and Powers

**Overall Skill Level:** Back in the Golden Age of Jujutsu, the Heian Era, Ryomen Sukuna was feared and regarded by awe by all those in his time as the most powerful sorcerer of the time, defeating and killing thousands of Jujutsu sorcerers even as they sharpened their skills against him. One of his feats included single-handedly slaughtering the both the Sun-Moon-Stars and the Five Empty Generals so utterly that they were unrecognizable as corpses, the most elite of the [Fujiwara Clan's](#) Subjugation Units, leaving the authorities of Japan so utterly terrified that they were willing to hold festivities in his honor. The impact Sukuna left on history until he died earned him the title of the "Strongest Sorcerer In History", as well as the "King of Curses", regarded as the strongest Cursed Spirit in history. His strength is still held in such a high regard that even [Satoru Gojo](#), the strongest jujutsu sorcerer of the modern age, with arrogance levels of confidence and pride in his abilities, acknowledged his strength and that a fight between the two of them would be difficult.
